

# ANWESH KRISHNA B

B.E. COMPUTER SCIENCE AND ENGINEERING

+919686543974 anweshkrishnab6324@gmail.com anwesh-krishna-b Anwesh003

## Personal Profile

Engineering student with a deep commitment to Computer Science and a specialization in Android and web development. Demonstrates a proactive approach to skill enhancement and staying abreast of the latest industry trends. Through a rigorous academic background and diverse hands-on projects, has developed a robust foundation in software development, driving a passion for creating innovative and user-centric applications.

## Education

### Vivekananda College of Engineering and Technology

B.E in Computer Science and Engineering

Puttur, Karnataka

Nov 2021 - Current

### St. Philomena Pre-University College

Pre-University in PCMB

Puttur, Karnataka

May 2019 - May 2021

### Priyadarshini English Medium Highschool

High School

Puttur, Karnataka

Jun 2016 - Apr 2019

## Projects

### Agricultural Workforce Management System

Vivekananda College of Engineering and Technology

Mar 2024 - Apr 2024

- Developed an Agricultural Workforce Management System to assist farmers in efficiently managing the hiring and scheduling of workers for various tasks such as planting, harvesting, and maintenance.
- The system facilitated seamless communication between farmers and workers, ensuring a smooth workflow and optimizing task allocation and completion.
- **Technical Skills:** PHP, HTML, MySQL, XAMPP

### BE\_HELPER - Engineering Study Resource App

Vivekananda College of Engineering and Technology

Oct 2023 - Nov 2023

- Engineered the BE\_HELPER mobile application using Flutter and Dart, providing a comprehensive platform for engineering students to access study materials and relevant information.
- Integrated dynamic web content, enabling users to access external resources within the app, streamlining the learning process and improving study efficiency.
- The app's intuitive design and robust features established BE\_HELPER as a valuable tool for engineering students.
- **Technical Skills:** Flutter, Dart, Android Studio

## Skills

**Programming** Python, C/C++, Java, HTML/CSS, JavaScript, SQL.

**Miscellaneous** Flutter, Android Studio, Firebase, Git and GitHub.

**Soft Skills** Teamwork, Problem-solving, Documentation, Time Management.
